A SECRET ROOM

Our new friend in the Megahouse is looking for a secret room. We need to help him find it. But what's in the secret room? Use your **imagination**². **Imagine**³ you have got a secret room. You can have anything you want in the room. What does the room look like? What furniture is in the room? What can you do in there? Tell a friend about your secret room.

WELCOME TO THE MEGAHOUSE! IN THIS WORLD, THERE IS NO OUTSIDE, BUT THERE ARE SOME SECRETS!...

TASK OUR ROOMS IN THE MEGAHOUSE

Now work with a partner. Imagine you both live in the Megahouse. You have your **own**⁴ rooms. Ask each other questions about the rooms and try to draw what your partner's room looks like on a piece of paper. Use the example to help you.

Example

Are there any chairs in your room?

Yes, there are two chairs. Is there a bed in your room?

Yes, there's a big orange bed in my room. Is there a bookshelf in your room?

No, there isn't. But there are some cupboards. And are there any windows in your room?

No! There aren't any windows in the Megahouse!
