PŘEPIS NAHRÁVKY

Hail

Sometimes rain **falls**¹³ in very cold air. It **freezes**¹⁴ in the air. This is hail. One bit of hail is a **hailstone**¹⁵. Most hailstones are small. But sometimes they are big. The record for the heaviest hailstone is 1 kilogram.

Freezing Rain

Sometimes things on the ground (for example, trees, roads and cars) are very, very cold, but the air is warm. Then, the rain freezes on the cold things. Everything has a coat of **ice**¹⁶. This is freezing rain. It is very beautiful, but very **dangerous**¹⁷.

Heatwaves¹⁸

A lot of hot days is a heatwave. We had a heatwave in the Czech Republic this summer. The hottest day was 38 degrees. Too hot for you? Don't go to Arizona in the US. The record for the hottest day there is 57.6 degrees. Ouch!

PŘEPIS NAHRÁVKY

Hi Phoebe. How are you? I am very tired today. Yesterday I played football and played with my dog. I love my dog, he makes me so happy.

Tomorrow is Monday. Does that make you sad? I am not going to school tomorrow. Don't be angry! I am going on a plane to the USA. Are you surprised? My grandparents live in New York. See you next month,
Oliver
